

# It's good for SEIU Healthcare workers to be part of a strong, proud international union.

**FACT:** Despite what you may have read or heard, all SEIU Healthcare dues remain in Canada through an agreement with SEIU Canada. Don't be misled by false claims and poor research.

**FACT:** SEIU International, which includes over 2 million frontline workers like you, provides resources and knowledge to support us in advocating for better pay, benefits and worker protections here in Canada. Our global network also gives Canadian healthcare workers the power to help our communities in need abroad.

**FACT:** SEIU International covers the cost of many of our resources, such as communication tools like text messaging. This allows us to put even more of your dues into services that directly benefit you, like bargaining and grievances.

**FACT:** The WAVE, Member Leadership and Development Program (MLD), Leadership Academy and other core trainings for our members are all funded by SEIU International.

**FACT:** SEIU Healthcare's membership embodies SEIU International's commitment to equity and inclusion. Just like Canada itself, Inclusiveness is a core strength.
